DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

(1) the specifics of the device and the process being comprised of a thin film transistor array substrate having an ohmic contact pattern comprising a first embodiment which corresponds to Figures 1-6B;

(2) the specifics of the device and the process being comprised of a thin film transistor array substrate having a storage capacitors and a four mask method approach comprising a second embodiment which corresponds to Figures 7-17C;

(3) the specifics of the device and the process being comprised of a thin film transistor array substrate having color filters and a buffer layer comprising a third embodiment which corresponds to Figures 18-27B;

(4) the specifics of the device and the process being comprised of a thin film transistor array substrate having a differentiated colored organic film and data line assembly comprising a fourth embodiment which corresponds to Figure 28;

(5) the specifics of the device and the process being comprised of a thin film transistor array substrate having a reflective layer comprising a fifth embodiment which corresponds to Figures 29-34B;

Art Unit: 2871

(6) the specifics of the device and the process for a semitransparent LCD being comprised of a thin film transistor array substrate transparent electrodes comprising a sixth embodiment which corresponds to Figures 35-39B;

(7) the specifics of the device and the process for a semitransparent LCD being comprised of a thin film transistor array substrate transparent electrodes in a double-layered structure comprising a seventh embodiment which corresponds to Figure 40.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 2871

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Y. Wang whose telephone number is 703-305-7242. The examiner can normally be reached on M-F, 8 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 703-305-3492.
